

## **PUBLIC NOTICE**

The Cleveland Police Department has respectfully applied for a federally funded JAG grant once again. We have been approved to receive \$12,048.00 in federal funds. We would like to utilize those funds to purchase more Mobile Data Terminals for the Patrol Teams. We currently have four of the six teams fully equipped with Mobile Data Terminals. This grant would assist the department in outfitting the fifth team, and would aid in our quest to become totally paperless and innovative as we progress into the future. We wanted to keep the public informed of this action, and to stress our commitment to the community and the public safety of each citizen. If you have any questions about this grant or the usage of the funds please contact Lt. John Dailey at 423-559-3389.
